## About us

We're a family owned traditional pizza place. We pride ourselves on being the most average pizza place in the world. Our average rating is 2,5 stars and even our prices are average.

We started in the 1990's as a family owned and managed pizzeria. Our goal was not always to be the most average but after the housing market collapse in America in 2008 and later in Finland in 2009 we were forced to sell our pizzeria and start over.

After the market collapse we were left almost penniless and had to sell our pizzas at the average price of 14,50 euros per average pizza and 18,00 euros for a custom one.

We realized selling and making average pizzas was cheaper and more time and costeffective for us so we decided to be the most average.

And thats how capitalism works.

blabla sad backstory
